## BMR8 - MINI

MULTI-CHANNEL MASTER RECORDER  
& STREAMING SOLUTION

# BMR8 - MINI

## Revolutionizing Master Recording and Streaming at a New Level

BMR Mini is the new compact and powerful member of the BMR product family. This portable, high-quality solution makes it even easier to use master recording and live streaming.

With its small form-factor and USB3 ports for simple export to external storage units, it is the only tool users need to capture, record and stream content in various formats without thinking about the technology behind. Defined by a small form factor and significant cost advantages, BMR Mini represents the high quality and professional approach, typical of all Simplylive products. The easily transportable BMR Mini makes the perfect model for productions to capture and export all ISO recordings.

The BMR8 - Mini is the perfect starting point for live broadcast and offers a pioneering solution which breaks with traditional concepts and brings a modernised user experience to master recording and streaming. It provides high-quality technology at a very affordable price. BMR8 - Mini can be used as an ISO recorder for post-production and a master recorder for the clean and dirty feeds while incorporating a streaming function at the same time.

BMR8 - Mini features a new, compact and portable chassis with a rack mount option allowing recording of up to 8 SDI inputs with 16 channels embedded audio. The BMR8 - Mini is the ideal tool for recording content in an OB or live studio environment. The various I/O options give the users the flexibility they need in all production environments thinkable.

The powerful software architecture allows for optimal performance for multiple Hi/Lo streaming jobs at the same time. BMR8 - Mini offers users great versatility to capture the recorded media locally, on removable storage, on network attached storage or to live streaming destinations. The BMR8 - Mini marks a new entry point to the era of professional master recording and streaming with an unbeatable price/performance ratio.

### Features

- ▶ Portable and compact with a small footprint – easy-to-transport
- ▶ Significant cost advantages
- ▶ Recording of up to 8 SDI inputs
- ▶ Streamlined to single user applications
- ▶ Live streaming with multiple feeds and bitrates

## BMR8 - Mini – Capture, Master Record and Live Stream on Demand

The BMR8 - Mini platform is IP-ready and will promote SMPTE 2022/6 and TR-03 plus various broadcast codec formats (XDCam, ProRes 422, XAVC) soon.

The BMR8 - Mini can be used for live streaming of multiple feeds in various bitrates and multiple formats, supporting the latest H264 and H265 codecs. The system's architecture offers maximum performance at a fraction of the cost. This cost reduction is amplified with the new Mini hardware and also in operational savings offered by the efficiency of the innovative design of the BMR8 - Mini.

BMR8 - Mini is your entry into master recording and live streaming.

### Applications

- ▶ Mobile trucks / Flypacks
- ▶ Studio
- ▶ Entertainment venues
- ▶ Live streaming application

## Technical Specifications

### Video

- ▶ 8 x HD SDI inputs
- ▶ 1 Genlock Input (CB / BB / Tri-Level)
- ▶ 1 LTC Input
- ▶ Codecs: VC-3 120 / 145 Mbps

### Streaming Format

- ▶ Streaming: H264, H265
- ▶ Wrapper: MOV, MP4
- ▶ HLS, RTMP

### Audio

- ▶ Embedded audio: 16 tracks per video channel

### Storage

- ▶ Internal storage 1 x 2 TB SSD (30 hours of HD recording)
- ▶ USB3 connectors for import from / export to external storage

### Network

- ▶ 2 x 1 Gigabit Ethernet ports

### Physical

- ▶ Main unit: 11 (H) x 25 (D) x 38 (W) cm (4.5 x 10 x 15 in.) chassis, 5.5 kg (12 lb)
- ▶ Rack-mount option

### Power

- ▶ External Power Supply: 110 / 230 V 350 W
