VIBOX4 - MINI SLOMO

SLOW MOTION SERVER

VIBOX4 - MINI SLOMO

The most compact and powerful slow motion solution

ViBox Mini is the new compact and powerful member of the ViBox product family. This portable, high-quality solution makes it even easier to dip into live productions. With its small form-factor as well as innovative workflows and functions it is the only tool users need to produce cutting-edge content without thinking about the technology behind.

Although defined by a small form factor and significant cost advantages, ViBox Mini represents the high quality and professional approach, all Simplylive products are known for. The combination makes ViBox Mini the perfect entry-level model for smaller companies and productions.

The ViBox4 - Mini SloMo is the smallest model in the ViBox Mini SloMo product family and stands out with an unbeatable price/performance ratio. ViBox4 - Mini SloMo is the perfect starting point for live replay and offers a pioneering solution which breaks with traditional concepts and brings a modernised user experience to live replay. ViBox4 - Mini SloMo is affordable to everyone and makes live replay as easy as possible. The extensive slow motion capabilities

built into the ViBox4 - Mini SloMo stand-alone replay solution are combined with a new touchscreen UI approach. With this intuitive and instinctive UI ViBox4 - Mini SloMo bolsters the next generation of slow motion operators. Additionally, there is an option for a traditional dedicated slow motion controller, integrated with the touch UI.

The ViBox4 - Mini SloMo offers 4 configurable channels for up to 3 camera inputs with a minimum hardware footprint in a 5.5 kg portable chassis plus touchscreen and includes:

- ▶ Replays & highlights
- ▶ Super slow motion recording
- ▶ Import / Export of media
- ▶ Option for traditional remote controller

Features

- ▶ Portable and compact – 5,5 kg
- ▶ Significant cost advantages
- ▶ New touchscreen concept
- ▶ Professional solution
- ▶ Streamlined to single user applications

ViBox4 - Mini SloMo Touch UI

ViBox4 - Mini SloMo – Fast and Powerful Slow Motion Solution

The ViBox4 - Mini SloMo smart design is built around a touchscreen interface that removes the worry of operating and learning complicated equipment. The ViBox4 - Mini SloMo allows users to focus and act upon what they see and instinctively navigate the UI to create the same high-end replays at a fraction of the cost. This cost reduction is amplified with the new Mini hardware and also in operational savings offered with the efficiency of the innovative design of the ViBox4 - Mini SloMo application for a single operator.

The ViBox4 - Mini architecture also brings flexibility for remote, at-home productions. The system allows the back-end hardware to be located on-site while the UI can be extended via Ethernet to the production facility with the additional of the optional PC interface. This allows for a smaller footprint and less people needed on location or the ability to add super motion cameras to at-home productions without the need to send all the individual SDI phases back to the production hub.

Applications

- ▶ Mobile trucks / OB Vans
- ▶ Live Studio
- ▶ Stadiums and Arenas
- ▶ Collegiate and Educational

Technical Specifications

Video

- ▶ 3 x HD SDI / NDI Inputs
- ▶ 1 x HD SDI / NDI Outputs
- ▶ Options for SSM Inputs
- ▶ 3 Preview and 1 PGM
- ▶ Codec: DN x HD 120 / 145

Audio

- ▶ Embedded audio: 16 tracks per video channel (input or output)

Storage

- ▶ 2 TB SSD (30 h storage)
- ▶ USB3 connectors for import from / export to external storage

Network

- ▶ 2 x 1 Gigabit Ethernet ports

Controller

- ▶ Touchscreen
- ▶ Dedicated controller (option)

Operating System

- ▶ MS Windows 10

Physical

- ▶ Main unit: 11 (H) x 25 (D) x 38 (W) cm (4.5 x 10 x 15 in) chassis, 5.5 kg (12 lb)

Power

- ▶ External Power Supply: 110 / 230 V 350 W
